

EngenderHealth's global strategy:

**Advancing gender equality
in and through SRHR**

Vision and mission

- ✿ **Vision:** A gender-equal world where all people achieve their sexual and reproductive health and rights.
- ✿ **Mission:** To implement high-quality, gender-equitable programs that advance sexual and reproductive health and rights.

Theory of change

WE BELIEVE

If **girls and women** are empowered and engaged

and live in **supportive communities**

and **systems and institutions** provide high-quality, gender-equitable sexual and reproductive healthcare

and **policies, laws, and processes** are supportive

The result will be that:

Women and girls will exercise their rights to gender-equitable sexual and reproductive health services and participate as equal members of society.

This result will be accelerated and amplified if:

EngenderHealth is an **effective organization** that prioritizes **learning, leadership, and partnership**.

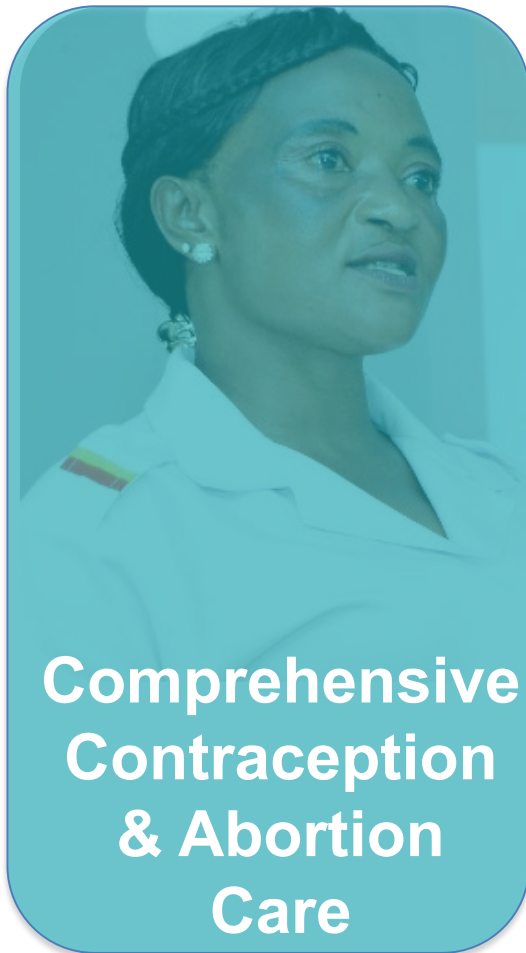

“

We know the change we want to see and be in the world. Our commitment is to strive for equality *in* and *through* sexual and reproductive health and rights programming.

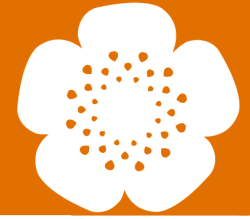

”

Key thematic areas

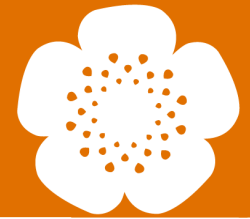

We are committed to:

- 🌸 Holistic, locally led programs
- 🌸 Meaningful youth participation
- 🌸 Transforming gender norms
- 🌸 High-quality, evidence-based programming
- 🌸 Walking the talk on gender equality
