EngenderHealth supports every person’s right to make free, informed decisions about whether, when, and with whom to have sex and whether, when, and with whom to have children.

EngenderHealth envisions a gender-equal world where all people achieve their sexual and reproductive health and rights.

To achieve this vision, EngenderHealth implements high-quality, gender-equitable programs that advance sexual and reproductive health and rights. We bring half a century of experience working on sexual and reproductive health in more than 100 countries. In our fiscal year 2023 (July 2022 to June 2023), we worked with individuals, healthcare providers, communities, local organizations, and government institutions through 23 programs to advance our shared goals. All of our work is guided by our five core values, listed below.

• **Reflection:** we question, challenge, learn, and adapt
• **Inclusion:** we leave no one behind
• **Transformation:** we are committed to fundamental change to bring positive results
• **Integrity:** we lead by example and we walk our talk
• **Respect:** we honor the knowledge, wisdom, and agency of our collaborators

Impact

In fiscal year 2023, EngenderHealth supported sexual and reproductive health activities in 16 countries, through which we achieved the following results:

- 1,164,500 individuals received contraceptive care
- 1,682,900 unintended pregnancies were averted
- 477,400 unsafe abortions were averted
- 31,300 child deaths were averted
- 2,300 maternal deaths were averted
- $157,679,500 in direct healthcare costs were saved

Financial Summary

EngenderHealth is a 501(c)(3) nonprofit organization funded by bilateral and multilateral donor agencies, private foundations and other funding institutions, and individual benefactors. In fiscal year 2023, EngenderHealth recognized revenue of $37 million.

1 EngenderHealth trains healthcare providers and supports facilities in partnership with government and local organizations to offer high-quality sexual and reproductive health services. These data represent the reach of those services and their contribution to reducing preventable death and disabilities between July 2022 and June 2023. Impact data are estimated using the Marie Stopes International Impact 2 Model.
