

Change Makers and Game Changers: Reimagining the Road to 2030

An Evening Reception by EngenderHealth

Have you ever met a person who made a big difference in your life?

A role model who walked the talk and showed you the power of the unexpected—a change maker?

EngenderHealth is proud to invite you to the first in our series: “Role Models for Change.” Please join us to learn how to work smarter, not harder, from one of the pioneers in digital platforms and crowdsourcing solutions, as well as share stories, ideas, and inspiration from change makers in our field who are empowering—and being empowered by—others around the world.

Please join us for an interactive session:

- Digital pioneer and international crowdsourcing expert—Jacob Bøtter
- Role models for change—Ulla E. Müller, newly appointed President and CEO, EngenderHealth
- Heroes from the field—Dr. Yetnayet Asfaw, Vice President, Strategy and Impact, EngenderHealth
- Author and troublemaker—Jillian Reilly (moderator)

Together, with our role models for change, we will reimagine the road ahead to 2030.

When

Tuesday, May 17
6:00–9:00 pm

Where

B0-2, Bella Center, Copenhagen

*Cocktails and hors d'oeuvres
will be served.*
